

EB.92

Categories: [EB](#), [Edge Banders](#)

EDGE BANDER FOR SHAPED OR STRAIGHTENED PIECES EB.92

TECHNICAL DATA

Min - max thickness of the panel	mm 10-60
Edge dim. in rolls min - max	mm 0,4-3
Min radius with concave curve	mm 20
Min length of the panel	mm 280
2 edge feed speed	m 1' 3-7
Installed motor power	kW 2,5

Air pressure	bar 7
Weight	kg 200
Overall dimension	mm 1500x800x1300

CE EQUIPMENT

- Nr. 2 glue spreading rollers
- Plastic cups to raise the piece above the table
- Guillotine to cut bands up to 3 mm thickness
- Solid Phenolic table
- Sliding accessory for solid wood edges up to 3 mm
- Edge length measuring by means of a digital electronic counter
- Encoder for high precision cutting
- End switch for cutting of the edge
- Manual / automatic cutting device
- Glue pot (1 kg) with electronic adjustable heating system
